## *Please Note*

*The above fees include the extra calculated cost for the distance of more than 25m from our transport vans via track to site, and for any delay in removing hire gear from site due to the track being congested with many other wedding parties stopping for photo opportunities.*

*Please note the above package is all we are permitted to supply at this site as requested by the National Parks Terms & Conditions.*

*All of our arbours & structures require staked anchor points which is not permitted at this site.*

## *Terms & Conditions*

*The Client shall be responsible for giving any local authorities any necessary notice of their intention for Exotic Lily to erect the hire equipment. Exotic Lily will erect the installation as in your signed contract. We will not move the installation from the agreed location as signed in the contract. Extra fees will be applied when the distance is further than 25m from our transport vans.*

## *Bad Weather*

*The final call on bad weather must be made at 10.00am on the day of the wedding. One person must be nominated to make this decision. If for some reason we are unable to reach this contact on the day your ceremony hire will be set up where originally requested unless strong winds or heavy rain prevents us from doing so. We have the right to refuse the set up of the ceremony if severe weather conditions deemed detrimental to the hire items or dangerous to our staff or your guests and the public. In the event that bad weather prevents us from setting up hire items, or if your bad weather alternative means the items are no longer required, no monies will be refunded as the items have been held for your wedding and cannot be re-booked.*

*In the case of extreme heat with temperatures higher than 35 degrees we will not subject our staff to these conditions and the bad weather option will be put in place. High winds also require your bad weather option as we will not install structures or light weight decor objects which may get damaged or be a safety issue. If you choose to have your ceremony in such conditions we will however place out chairs and a signing table only. There is no refund on ceremony equipment.*

*Rain will also damage our products so you will need to decide if you would like your full installation erected at your bad weather location or would like to continue in possible rain or light showers where we will place out chairs only for your guests. There is no refund on ceremony equipment.*

## *Beach Ceremony*

*Beach ceremony sites must be no further than 25m from our transport vans. We no longer carry ceremony equipment further than 25m.*

*Prices are GST inclusive but do not include delivery, set-up & collection fee.*

*Please contact Exotic Lily so we can calculate the delivery, set-up & collection fee for ceremony sites outside the Newcastle area.*

*Extra decor can be added to the package however existing styling decor cannot be excluded from package.*

*We do allow chairs to be exchanged for another style chair from our decor catalogue.*

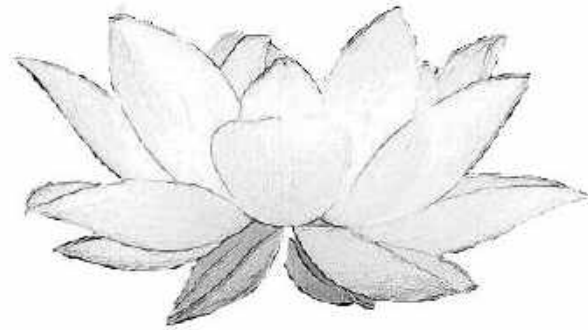

*Hired decorations & equipment for the ceremony will be fully assembled & completed 30 minutes prior to ceremony starting time. The Exotic Lily staff will then discretely wait until the ceremony is completed before the removal of hire equipment. Aisle carpets are for the bridal party aisle walk only and will be discretely rolled up 10min after ceremony is completed. This avoids a cleaning fee of \$100.00 due to guests leaving shoe marks, high heel piercing, food and drink stains. The staff will then wait a further 20mins before clearing the site of chairs and other structures. The total amount of hours provided by the staff is 3 hours*

*Fresh white flower petals are permitted to be used to accessorise the white carpet however coloured petals are not permitted.*

*A deposit is required to secure your wedding date for your ceremony. There are no refunds for hire equipment due to bad weather.*

*Cancellations can be refunded up until 6 months prior to wedding date however there is no refund on the booking deposit.*

*In the event of any damages to the hire equipment or any missing items, the client will be liable to pay the replacement cost on hire items and will be issued an invoice.*
